APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.1.....cubic feet per second, but not to exceed 0.0365 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before..... April 13, 1989.....

Proof of completion of work shall be filed on or before..... May 13, 1989.....

Application of water to beneficial use shall be made on or before..... April 13, 1991.....

Proof of the application of water to beneficial use shall be filed on or before..... May 13, 1991.....

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The total duty of water under this Permit is limited to the domestic use draught for the single family dwelling within the place of use as provided and defined in NRS 534.0135 and 534.180 and shall not exceed 1,800 gallons per day. The issuance of this Permit does not constitute a new appropriation of water and the use of water hereunder must be in conjunction with the domestic use of the single family dwelling and further that any application to change the point of diversion, manner or place of use under this Permit will not be allowed.
